# Introducing Our New Distributor

Date: June 29, 2012

Matrix Orbital is pleased to announce our newest distribution partner in Russia, Macro Group. As the world leader in communication interface displays, Matrix Orbital is continually working towards adding new distribution partners to better serve our customers around the world.

As one of Russia's top 10 distributors of electronic components, Macro Group has the experience and knowledge required to help us serve the ever increasing demand for our products in the Russian market. We look forward to the new opportunities this partnership provides for both of our companies and our customers.

### About Macro Group

Macro Group is one of the top 10 local distributors of electronic components in Russia and the CIS. Macro Group is a trusted supplier of high end electronic components and also provides R&D and contract manufacturing services. They have a clear mission to be an active leader in the development of New Russian Economics by providing the world's leading achievements in the field of electronics.

Macro Group's customers are leading Russian OEMs from many industries including: aerospace, defense, telecommunications, and industrial electronics.

As a full service supplier, Macro Group provides extensive customer service and offers technical support at every stage of a project including:

- New product information sessions
- Design and development
- Debugging utilities and software
- Replacement options
- In-house laboratory for claims analysis

With a focus on quality, Macro Group is ISO 9001:2000 certified and are approved as a military supplier in Russia. They are also certified by the Ministry of Nuclear Energy as a trusted Russian supplier.

Macro Group is an authorized partner of: Xilinx, PLX Technologies, Avago, Rakon, RFKMD, CML Microcircuits, Tai Saw, Power Integrations, Delta Electronics, Semisouth Laboratories, GE Control and Measurement, 2J Antennas, Simcom, Skytraq, Leadtek, Sagemcom, Navis.
